Professional Experience

React Frontend Developer | ***Haven Infoline Pvt. Ltd. (Permanent Employee)*** *Nov 2025 – Present*

- Developed and maintained responsive web applications using ReactJS, JavaScript, TypeScript, and modern frontend technologies.
- Built reusable UI components and dynamic user interfaces, focusing on component reusability, maintainability, and cross-device compatibility.
- Integrated REST APIs, handled API responses, implemented dynamic features, and managed frontend data flows.
- Worked on enterprise-level application modules involving dashboards, reports, user management, and workflow enhancements.
- Identified and resolved UI bugs, improved application functionality, and collaborated with team members to deliver development tasks within project deadlines.

Internship Experience

Python Developer Intern | ***Haven Infoline Pvt. Ltd. (Lockated)*** *Jun 2025 – Jul 2025*

- Completed an internship focused on Python-based backend development and automation tasks.
- Developed modular Python scripts and gained practical experience in backend programming, debugging, and problem-solving.
- Collaborated with team members under professional mentorship to understand development workflows and complete assigned tasks.

Projects

Nexora – AI-Powered Personal Assistant Platform | ***React 19, TypeScript, Supabase, Tailwind CSS*** | **GitHub** *2026 – Present*

- Developed an AI-powered personal assistant platform with a responsive interface designed to bring conversational assistance and productivity workflows into a unified application.
- Built the frontend using React 19, TypeScript, TanStack Router, and Tailwind CSS, following a reusable component-based architecture.
- Integrated Supabase application services and developed the foundation for conversational interactions and assistant capabilities.

PropSmart – Real Estate Management Platform | ***Next.js, TypeScript, PostgreSQL, Prisma*** | **GitHub** *Jul 2025 – Present*

- Developed a full-stack real estate management platform for managing properties, buyers, tenants, and business operations through a centralized dashboard.
- Implemented property management, customer tracking, search, filtering, and role-based workflows.
- Developed responsive interfaces using Next.js and modern frontend technologies.
- Integrated PostgreSQL database operations using Prisma ORM, including data handling and validation.
- **Live Demo**

Technical Skills

Languages:	JavaScript, TypeScript, Java, Python, C, C++, SQL, HTML5, CSS3
Frontend:	ReactJS, Next.js, TanStack Router, Redux, Zustand, React Query, Relay, Bootstrap, Tailwind CSS, SASS
Backend:	Node.js, Express.js, REST API Integration, Supabase
Databases:	MySQL, MongoDB, PostgreSQL
Developer Tools:	Git, GitHub, VS Code, Vite

Soft Skills

Problem Solving, Communication, Debugging, Team Collaboration, Technical Documentation, Code Quality

Education

Master of Computer Applications (MCA) **Currently Pursuing**

Navinchandra Mehta Institute of Technology and Development (NMITD)

Bachelor of Computer Applications (BCA) **Completed**

Bharati Vidyapeeth Department of Management Studies **CGPA: 8.32/10**

Extracurricular Activities

- Participated in the **Google Developer Groups (GDG)** program to enhance community-based development skills.
- Completed a **Graphic Designing Course** through **Skill India**, gaining knowledge of visual communication and creative design tools.
